Part 1 – Annual Budget

1.1 Mayor's Report

Introduction

To the Honourable Councillors, the Municipal Manager, Heads of Department, municipal officials and members of the community.

It is my pleasure, in my capacity as Mayor of the Kwa Sani Local Municipality, to present Draft medium term revenue and expenditure framework (MTREF) for the 2015/2016 financial year and ensuing two years. In terms of section 21(2) (a)-(c) of the MFMA – ‘when preparing the annual budget, the mayor of a municipality must:

- (a) Take into account the municipality’s integrated development plan (IDP);
- (b) take all reasonable steps to ensure that the municipality revises the IDP in terms of section 34 of the Municipal Systems Act, taking into account realistic revenue and expenditure projections for future years;
- (c) take into account the national budget, the relevant provincial budget, the national government’s fiscal and macro-economic policy, the annual Division of Revenue Act (DoRa) and any agreements reached in the Budget Forum’.

Thus taking into account the provision of the MFMA as stated above, I present to all present the draft MTREF for 2015/2016 to 2017/2018. The intention is to bring forth the highlights contained within the draft budget in its current form so as to facilitate a process of consultation leading to the compilation of a final budget for the 2015/2016 financial year. It is indeed our stated intention, as the Kwa Sani Local Municipality, that the Final budget for the 2015/2016 financial year be adopted as at the end of May 2015, should be a product of rigorous review and extensive consultation such that the limited resources available are allocated towards satisfying the community’s priorities and that the budget preparation process itself complies with relevant legislation.

Thus taking into account the legislation that regulates the entire budget preparation and approval processes, Council must, by the end of these proceedings, approve and adopt resolutions, in terms of section 24 of the MFMA, on the annual budget of the municipality for the financial year 2015/16 and the multi-year and single-year capital appropriations and also the financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets as detailed in the municipality's MTREF document. The Council of Kwa Sani Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000), must also approve and adopt with effect from 1 July 2015, the tariffs for property rates, the tariffs for solid waste services and the tariffs for other services.

Background

The application of sound financial management principles for the compilation of the Kwa Sani Municipality budget is essential and critical to ensure that the municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditures on noncore and 'nice to have' items.

The Kwa Sani Municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. Furthermore, the Municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

National Treasury's MFMA Circular No. 70,72 and 75 were used to guide the compilation of the 2015/16 MTREF.

The main challenges experienced during the compilation of the 2014/15 MTREF can be summarised as follows:

- The on-going difficulties in the national and local economy;
- The unemployment in the community that we are serving, having a negative impact on the collect over revenue, and increasing number of indigents.
- Aging and poorly maintained infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- Decreased funding of capital projects resulting in cutting of some of the projects that were supposed to be done in this financial year, thus delaying the service delivery; and
- Availability of affordable funding

The final budget presentation reflects the following consolidated (summary) estimates:

**Table 1 Consolidated
Overview of the 2015/16
MTERF**

	ADJ. BUDGET 2014-2015	BUDGET YEAR 2015-2016	BUDGET YEAR 2016-2017	BUDGET YEAR 2017-2018
Total Operating Revenue	43 649 903	43 214 041	41 388 079	46 069 883
Total Operating Expenditure	43 637 695	43 201 810	41 373 277	46 060 670
(Surplus)/Deficit for the year	12 208	12 231	14 802	9 213
Own Funded Capital	3 963 823	2 189 900	Nil	Nil
MIG Funded Capital	7 478 000	7 530 000	7 639 000	7 803 000
TOTAL CAPITAL EXPENDITURE	11 441 823	9 719 900	7 639 000	7 803 000

I would like to bring forth some of the highlights contained within the budget:

Overview:

Total operating revenue has decrease by 0.99 per cent or R0.436 million for the 2015/16 financial year when compared to the 2014/15 Final Budget. For the two outer years, operational revenue will decrease by 4.22 and increase by 11.31 per cent respectively. Total operating expenditure for the 2015/16 financial year has been appropriated at R43.2 million when compared to the 2014/15 Final Budget, operational expenditure has decrease by 0.99 per cent in the 2015/16 budget and by 4.23 and increase by 11.32 per cent for each of the respective outer years of the MTREF. The own funded capital was budgeted at R3.9 million in the previous years and is now budget at R2.1 million.

The capital budget of R9.7 million for 2015/16 is 15 per cent less when compared to the 2014/15 Final Budget. This is due to the decrease in municipal funded capital budget in the 2015/2016 financial year, and Small Towns Development Grants does not have any budget. The capital programme increases to R7.6 million in the 2016/17 financial year and then increase in 2017/18 to R7.8 million. Consequently, the capital budget remains relatively flat over the medium-term.

Departmental objectives for 2015/2016 are the following:

Budget and Treasury Office

The strategic objective of the Budget and treasury office is to manage the municipal financial resources in a way that will ensure financial viability and the alignment of the budget with the needs and priorities of stakeholders

- On Supply Chain Management will concentrate on local economic development, procurement plan (Enhance efficiency on departmental), healthy management of assets and efficiency on payments of providers
- Implement revenue collection systems by vigorously enforcing credit control and debt management and social responsibility on indigents, customer care issues revenue enhancement strategy, addition in billing for properties and MPRA (supplementary roll)
- Implement the financial plans that have emphasis on budget process, MTREF, service delivery and budget implementation plan and financial reporting.
- Management of Assets and Liability ensure proper controls are in place and Effective fleet management

Infrastructure and Engineering

Strategic objective	Departmental Objective	Programmes	Funding Source
To provide sustainable public facilities	Buildings and Community Halls	Maintenance of municipal buildings in all wards. Construction of Combo Courts	Internal Funds MIG
Provision of sustainable road infrastructure to KSM	Roads & Storm Water	Tarring of Woodford road and Old main road in Underberg. Maintenance of Roads	MIG and Internal Funds respectively. Internal Funds

CORPORATE SERVICES DEPARTMENT

Based on the operational plan of the department for the next financial year the department has identified many objectives but for the purposes of this session I am going to highlight only 5 key priorities for the year.

- Provision of general office management and administration services.
- Ensure proper records management within the municipality.
- To develop and improve skills level in the municipality.
- Implementation of performance management services within the municipality.

COMMUNITY AND SOCIAL SERVICES**COMMUNITY DEVELOPMENT**

- Disaster management programs
- Firefighting programs
- HIV/Aids awareness campaigns

ARTS AND CULTURE

- Competition for music, song and dance
- Competition for literature
- Moral regeneration programs

PLANNING AND HOUSING DEPARTMENT

- Verification of the proposed nodes, implementation plans for each node, BP's, layout plans, zoning, building control

Housing Development

- Will be inviting proposals from the property developers for the development of Middle to High Income Housing (Residential Zoning)
- Completion of Low Cost Housing Projects by the KZN-Department of Housing

Local Economic Development & Tourism

- Implementation of LED & Tourism Projects : Funding Constraints reliance on grant funding from other potential funders

Local Economic Development

- Registration of SMME's /Individuals through CIPRO
- Assisting SMME's in various forms
- Production of white maize
- Live- stock Farming
- Recycling program
- Informal Sector Support
- Operation of Reichenau Small Business

Land Administration

- Acquisition of state land (process)
- Implementation of land policy as well as the enforcement

Revenue:

For Kwa Sani Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to ensure a 95 per cent annual collection rate for property rates and other key service charges;
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);
- Increase ability to extend new services and recover costs;
- The municipality's Indigent Policy and rendering of free basic services; and
- Tariff policies of the Municipality.

Tariff-setting is a pivotal and strategic part of the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services were taken into account to ensure the financial sustainability of the Municipality.

It must also be appreciated that the consumer price index, as measured by CPI, is not a good measure of the cost increases of goods and services relevant to municipalities. The basket of goods and services utilised for the calculation of the CPI consist of items such as food, petrol and medical services, whereas the cost drivers of a municipality are informed by items such as the cost of remuneration, bulk purchases of electricity and water, petrol, diesel, chemicals, cement etc. The current challenge facing the Municipality is managing the gap between cost drivers and tariffs levied, as any shortfall must be made up by either operational efficiency gains or service level reductions. The Municipality will have to implement a refuse removal strategy to ensure that this service can be rendered in a sustainable manner over the medium to long-term.

The main contributors to this deficit are repairs and maintenance on vehicles, increases in general expenditure such as petrol and diesel transporting of refuse and the cost of remuneration. Considering the deficit, it is recommended that a comprehensive investigation into the cost structure of refuse removal function be undertaken, and that this include investigating alternative service delivery models. The outcomes of this investigation will be incorporated into the next planning cycle.

Expenditure:

The Municipality's expenditure framework for the 2015/16 budget and MTREF is informed by the following:

- Repairs and Maintenance;
- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- Operational gains and efficiencies will be directed to funding the capital budget and other core services; and
- Strict adherence to the principle of 'no project plan, no budget'. If there is no business plan no funding allocation can be made.

The budgeted allocation for employee related costs for the 2015/16 financial year totals R19.2 million. Based on the new Circular 75 released on the 04 March 2015, salary increases have been factored into this budget at a percentage increase of 4.4 per cent for the 2015/16 financial year. An annual additional increase of 0.25 and 0.25 per cent has been included in the two outer years of the MTREF. As part of the Kwa Sani municipality cost reprioritisation and cash management strategy, vacancies have been significantly rationalised downwards. The cost associated with the remuneration of Councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the Kwa Sani municipality's budget.

Other expenditure comprises of various line items relating to the daily operations of the municipality. This group of expenditure has also been identified as an area in which cost savings and efficiencies can be achieved.

Ladies and gentlemen, may I take this opportunity to thank you for your attentiveness and your contribution in the on-going development of Kwa Sani.

Thank you

Councillor M. B Banda

Mayor of Kwa Sani Municipality

1.2 Council Resolutions

On the 28 March 2014 the council of KwaSani Municipality met at the Municipal Boardroom, Himeville to consider the 2015/16 – 2017/18 Budget. The budget & supporting document (Schedule A), budget related policies and tariffs of charges was adopted by the council of KwaSani Local Municipality.

1. The Council of Kwa Sani Municipality, acting in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) noted:
 - 1.1. The Draft budget of the municipality for the financial year 2015/16 and the multi-year and single-year capital appropriations as set out in the following tables:
 - 1.1.1. Budgeted Financial Performance (revenue and expenditure by standard classification) as contained Table 9 MBRR Table A2 on page 20;
 - 1.1.2. Budgeted Financial Performance (revenue and expenditure by municipal vote) as contained in Table 10 MBRR Table A3 on page 21;
 - 1.1.3. Budgeted Financial Performance (revenue by source and expenditure by type) as contained in Table 11 MBRR Table A4 on page 22; and
 - 1.1.4. Multi-year and single-year capital appropriations by municipal vote and standard classification and associated funding by source as contained in Table 12 MBRR Table A5 on page 23
 - 1.2. The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables:
 - 1.2.1. Budgeted Financial Position as contained in Table 13 MBRR Table A6 on page 25;
 - 1.2.2. Budgeted Cash Flows as contained in Table 14 MBRR Table A7 on page 27;
 - 1.2.3. Cash backed reserves and accumulated surplus reconciliation as contained in Table 15 MBRR Table A8 on page 28;
 - 1.2.4. Asset management as contained in Table 16 MBRR Table A9 on page 28; and
 - 1.2.5. Basic service delivery measurement as contained in Table 17 MBRR Table A10 on page 29.
2. The Council of Kwa Sani Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) notes the proposal for the increment of tariffs by 4.8% with effect from 1 July 2015 which the Draft Budget has been prepared based on it.
3. To give proper effect to the municipality's Draft budget, it must further be noted that:
 - 3.1. That cash backing is implemented through the utilisation of a portion of the revenue generated from property rates to ensure that all capital reserves and provisions, unspent long-term loans and unspent conditional grants are cash backed as required in terms of the municipality's funding and reserves policy as prescribed by section 8 of the Municipal Budget and Reporting Regulations.

1.3 Executive Summary

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality's remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditures on noncore and 'nice to have' items. This has resulted in savings to the municipality.

The Municipality has embarked on implementing a range of revenue collection strategies to optimize the collection of debt owed by consumers. Furthermore, the Municipality has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

National Treasury's MFMA Circular No. 70, 71, 74 and 75 were used to guide the compilation of the 2015/16 MTREF.

The main challenges experienced during the compilation of the 2015/16 MTREF can be summarised as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained roads and buildings infrastructure;
- The need to re-prioritise projects and expenditure within the existing resource envelope given the cash flow realities and declining cash position of the municipality;
- Expected Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;
- Affordability of capital projects
- Availability of affordable capital/borrowing.

The following budget principles and guidelines directly informed the compilation of the 2015/16 MTREF:

- The 2014/15 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget were adopted as the upper limits for the new baselines for the 2015/16 draft budget;
- Tariff and property rate increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality.
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazette as required by the annual Division of Revenue Act;

In view of the aforementioned, the following table is a consolidated overview of the proposed 2015/16 Medium-term Revenue and Expenditure Framework:

The following table is a summary of the 2014/15 MTREF (classified by main revenue source):

Table 2 Summary of revenue classified by main revenue source

KZN432 Kwa Sani - Table A4 Budgeted Financial Performance (revenue and expenditure)

Description	Ref	2011/12	2012/13	2013/14	Current Year 2014/15				2015/16 Medium Term Revenue & Expenditure Framework		
		Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Pre-audit outcome	Budget Year 2015/16	Budget Year +1 2016/17	Budget Year +2 2017/18

Service charges - refuse revenue	2	1,925	2,121	2,123	2,164	2,257	2,257	2,257	2,360	2,499	2,639
Service charges - other											
Rental of facilities and equipment		242	298	303	353	320	320	320	461	483	990
Interest earned - external investments		820	931	1,190	1,541	1,176	1,176	1,176	1,257	1,317	2,698
Interest earned - outstanding debtors						188	188	188	194	206	217
Dividends received											
Fines		125	73	110	107	118	118	118	84	89	94
Licences and permits		99	65	201	742	454	454	454	826	874	923
Agency services											
Transfers recognised - operational		14,989	17,058	23,656	18,253	18,253	18,253	18,253	21,536	18,575	19,096
Other revenue	2	446	409	454	2,305	6,326	6,326	6,326	1,324	1,222	1,290
Gains on disposal of PPE		78									
Total Revenue (excluding capital transfers and contributions)		29,508	33,427	43,368	40,017	43,649	43,649	43,649	43,214	41,388	46,070

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit. Property Rates and service charges have been increased by 4.8% due to the anticipated inflation rate as outlined in circular 74. All other Revenue has been increased by 4.8% anticipated inflation rate.

There is an expected increase in revenue to be generated from licenses and permits for the municipality. This relates to re-opening of the Licensing Centre to generate additional revenue. Revenue estimates was obtained from the Department of Transport to determine the extent of revenue that will be generated. The municipality has opted to take the conservative approach to prevent over estimating revenue raised. These new operations are expected to commence in the month of May 2015.

Table 3 Transfers and Grant Receipts

Sub Total	-25,731,000	-25,731,000	-29,066,000	-26,214,000	-26,899,000

Operating and capital grants and transfers totals R 29,0 million in the 2015/16 financial year and steadily decreases to R 26,2 million by 2016/17 and increases to R 26,8 million in 2017/2018 .

Tariff setting is a pivotal and strategic part of the compilation of any budget. When rates, tariffs and other charges were revised, local economic conditions, input costs and the affordability of services were taken into account to ensure the financial sustainability of the municipality.

National Treasury continues to encourage municipalities to keep increases in rates, tariffs and other charges as low as possible. Municipalities must justify in their budget documentation all increases in excess of the 4.8 per cent upper boundary of the South African Reserve Bank's inflation target. Excessive increases are likely to be counterproductive, resulting in higher levels of non-payment.

1.3.1 Property Rates

Property rates cover the cost of the provision of general services. Determining the effective property rate tariff is therefore an integral part of the municipality's budgeting process.

National Treasury's MFMA Circular No. 51 deals, inter alia with the implementation of the Municipal Property Rates Act, with the regulations issued by the Department of Co-operative Governance. These regulations came into effect on 1 July 2009 and prescribe the rate ratio for the non-residential categories, public service infrastructure and agricultural properties relative to residential properties to be 0,25:1. The implementation of these regulations was done in the previous budget processes and the Property Rates Policy of the Municipality has been amended accordingly.

The categories of rate-able properties for purposes of levying rates and the proposed rates for the 2015/16 financial year are based on 4.8 % increase from 1 July 2015 .

Currently solid waste removal is not operating in the desired manner. The Municipality will have to implement a solid waste strategy to ensure that this service can be rendered in a sustainable manner over the medium to long-term. Also, measures will have to be implemented to ensure that this service is offered equitably to all residents in the KSM region. The tariff for each category of refuse will increase by 4.8% in the 2015/16 financial year.

1.3.2 Operating Expenditure Framework

The Municipality's expenditure framework for the 2015/16 budget and MTREF is informed by the following:

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The capital programme is aligned to the asset renewal strategy and backlog eradication plan and
- Operational gains and efficiencies will be directed to funding the capital budget and other core services.

The following table is a high level summary of the 2013/14 budget and MTREF (classified per main type of operating expenditure):

Table 4 Summary of operating expenditure by standard classification item

The Employee related cost will increase by 4.4 % as per Circular 75. There are no new positions that are included in the Draft budget but there were requested for new post which would be discussed in April and May before the approval of budget. These include but not limited to

- Animal pound Supervisor / Officer
- Two Animal pound Assistants
- Housing Officer
- Risk Officer
- Records Officer

All other line items have been increased by 4.8 % which is the projected inflation rate. For the purposes of this budget preparation all unspent conditional grants have not been included in the budget and will be included in the adjustment budget 2015/16 subject to Rollover approval by the donor departments.

1.3.4 REPAIRS AND MAINTENANCE

The tables below shows audited figures for 2011/2012 to 2013/2014 repairs and maintenance by asset class and Budgeted Financial Position. The PPE for 2013/2014 is R 59 016 000, 5% of this are buildings

which does not need major maintenance and 10% are vacant lands which does not needs major maintenance except for grass cutting. The amount budgeted for repairs and maintenance for all assets except for roads is enough to cover the required maintenance, should there be any savings during the year those savings would be used top up the budgeted amount for roads.

For 2015/16 an amount of R7,5 million has been appropriated for the development of infrastructure in the total capital budget. In the outer years this amount totals R7,6 million and R7,8 million respectively for each of the financial years.

1.4 Annual Budget Tables

The following pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2015/16 budget and MTREF as noted by the Council.

1.4.1 Table 8 MBRR Table A1 - Budget Summary

Explanatory notes to MBRR Table A1 - Budget Summary

1. Table A1 is a budget summary and provides a concise overview of the Municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
 - a. The operating surplus/deficit (after Total Expenditure) is positive over the MTREF
 - b. Capital expenditure is balanced by capital funding sources, of which
 - i. Transfers recognised is reflected on the Financial Performance Budget;
 - ii. Borrowing is incorporated in the net cash from financing on the Cash Flow Budget
 - iii. Internally generated funds is financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget.
4. The Cash backing/surplus reconciliation shows that in previous financial years the municipality was not paying much attention to managing this aspect of its finances, and consequently many of its obligations are not cash-backed. This places the municipality in a very vulnerable financial position, as the recent slow-down in revenue collections highlighted. Consequently Council has taken a deliberate decision to ensure adequate cash-backing for all material obligations in accordance with the Funding and Reserves Policy. This cannot be achieved in one financial year. But over the MTREF there is progressive improvement in the level of cash-backing of obligations. Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor.

Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

- Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.
- The Total Revenue on this table includes capital revenues (Transfers recognised – capital).
- Note that as a general principle the revenues for the Trading Services should exceed their expenditures. The table highlights that this is the case for Governance and Trading functions, but not the Economic, Community and Public Services and Other function. As already noted above, the

municipality will be undertaking a detailed study of this function to explore ways of improving efficiencies and provide a basis for re-evaluating the function's tariff structure.

- Other functions that show a deficit between revenue and expenditure are being financed from rates revenues and other revenue sources reflected under the Governance Vote.

Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)

- Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the Organisational structure of the Municipality. This means it is possible to present the operating surplus or deficit of a vote.

Explanatory notes to Table A4 - Budgeted Financial Performance (revenue and expenditure)

- Total revenue is R 43, 2 million in 2015/16 and increases to R 46 million in 2017/18 due to increase in grants receipt which decreased in 2016/2017.
- Revenue to be generated from property rates is R14 million in the 2015/16 financial year and increases to R 14,9 million in 2016/2017 and to R 15,7 million 2017/18 which represents 4,8% increase in 2015/16 ; 5.9% in 2016/17 & 5.6% in 2016/2017. Rates remains a significant funding source for the municipality.
- Services charges relating to refuse removal constitute R2 million of the revenue basket of KSM.
- Transfers recognised – operating includes the local government equitable share and other operating grants from national and provincial government.

Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, standard classification and funding source

1. Table A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
2. The MFMA provides that a municipality may approve multi-year or single-year capital budget appropriations.
3. Single-year capital expenditure has been appropriated at R 9,7 million for the 2015/16 financial year, to R 7,6 million and R 7,8 million respectively for the two outer years.
4. Unlike multi-year capital appropriations, single-year appropriations relate to expenditure that will be incurred in the specific budget year such as the procurement of vehicles and specialized tools and equipment. The budget appropriations for the two outer years are indicative allocations based on the departmental business plans as informed by the IDP and will be reviewed on an annual basis to assess the relevance of the expenditure in relation to the strategic objectives and service delivery imperatives of KSM. For the purpose of funding assessment of the MTREF, these appropriations have been included but no commitments will be incurred against multi-year appropriations for the two outer-years.
5. The capital programme is funded from capital and provincial grants and transfers, public contributions and donations, borrowing and internally generated funds from current year surpluses.

Explanatory notes to Table A6 - Budgeted Financial Position

- Table A6 is consistent with international standards of good financial management practice, and improves understandability for councilors and management of the impact of the budget on the statement of financial position (balance sheet).
- This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as "accounting" Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
- Table A6 is supported by an extensive table of notes (SA3) providing a detailed analysis of the major components of a number of items, including:
 - Call investments deposits;
 - Consumer debtors;
 - Property, plant and equipment;
 - Trade and other payables;

- Provisions non-current;
 - Changes in net assets; and
 - Reserves
- The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
 - Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table A7 - Budgeted Cash Flow Statement

- The budgeted cash flow statement is the first measurement in determining if the budget is funded.
- It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

- The municipality does not have long-term investments, all investments are on 24 hour call deposit accounts. Most of these investments are grants that the municipality received to spend in the budget year therefor cannot be invested for longer periods.
- Cash levels of R 24,7 million in 2015/16, R 27, million in 2016/2017 and R 29,6 million in 2017/2018.
- The municipality is planning to recover cash in terms of a debt collection strategy from consumers to ensure sufficient cash is available to meet daily requirements.
- The 2015/16 MTREF has been informed by the planning principle of ensuring adequate cash reserves over the medium-term.

Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

- The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
- In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
- The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
- Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
- From the table it can be seen that for the period 2015/16 to 2017/18 the surplus is R 22,4 million and it increases to R 24, 2 million & R 26, 3 million in the following years.
- Considering the requirements of section 18 of the MFMA, it can be concluded that the adopted 2015/16 MTREF is funded.
- As part of the budgeting and planning guidelines that informed the compilation of the 2015/16 MTREF the end objective of the medium-term framework was to ensure the budget is funded aligned to section 18 of the MFMA.

Explanatory notes to Table A9 - Asset Management

- Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
- National Treasury has recommended that municipalities should allocate at least 40 per cent of their capital budget to the renewal of existing assets, and allocations to repairs and maintenance should be 8 per cent of PPE. The Municipality does meet the recommendations for the renewal of existing assets and other assets except for maintenance of roads as previously indicated on prior tables above.

Explanatory notes to Table A10 - Basic Service Delivery Measurement

1. Table A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. The Municipality reports on backlogs for :
 - a. Refuse services
3. The budget provides for 389 households to be registered as indigent in 2015/16, and therefore entitled to receiving Free Basic Services.
4. It is anticipated that these Free Basic Services will cost the municipality R 0.428 million in 2015/16, increasing to R0.453 million in 2016/17 and to R0.478 million in 2017/2018 This is covered by the municipality's equitable share allocation.

Part 2 – Supporting Documentation

2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the CFO.

The primary aims of the Budget Steering Committee are to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the Municipality's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

Community consultation started in October 2014 which informed the Draft Budget. The Draft budget was discussed with HODs, presented to MANCO, Budget Steering Committee and to the Budget and Treasury Committee before being tabled to the Council.

2.1.1 BELOW IS THE APPROVED IDP AND BUDET PROCESS PLAN

ACTION	PURPOSE	RESPONSIBLE	TARGET DATE
IDP Framework and Process Plan	To guide and align planning between the district and local municipalities, government departments and other stakeholders	IDP- Municipal Manager	July - August 2014
Public Participation	In order to adhere to Chapter 4 of the MSA and ensure that members of the community partake in the affairs of the municipality	Office of the Mayor	November - December 2014

Publication of SDBIP and Annual Budget	Community participation	MM	July 2015
The Mayor submits the approved SDBIP and Performance Agreements to Council, MEC for corporative governance		Mayor/MM	End July 2015

2.1.2 Budget and IDP overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2014) a time schedule that sets out the process to revise the IDP and prepare the budget. The Mayor tabled in Council the required the IDP and budget time schedule.

The Municipality's IDP is its principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan. The Process Plan applicable to the fourth revision cycle included the following key IDP processes and deliverables:

- Registration of community needs;
- Compilation of departmental business plans including key performance indicators and targets;
- Financial planning and budgeting process;
- Public participation process;
- Compilation of the SDBIP, and
- The review of the performance management and monitoring processes.

The IDP has been taken into a business and financial planning process leading up to the 2015/16 MTREF, based on the approved 2014/15 MTREF, Mid-year Review and adjustments budget. The business planning process has subsequently been refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2015/16 MTREF, each department/function had to review the business planning process, including the setting of priorities and targets after reviewing the mid-year and third quarter performance against the 2014/15 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

2.1.3 Financial Modeling and Key Planning Drivers

As part of the compilation of the 2015/16 MTREF, extensive financial modelling was undertaken to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2015/16 MTREF:

- Municipal growth
- Policy priorities and strategic objectives
- Asset maintenance
- Economic climate and trends (i.e. inflation, Eskom increases, household debt, migration patterns)
- Performance trends
- The approved 2014/55 adjustments budget and performance against the SDBIP
- Cash Flow Management Strategy
- Debtor payment levels
- Loan and investment possibilities
- The need for tariff increases versus the ability of the community to pay for services;
- Improved and sustainable service delivery

2.2 Overview of alignment of annual budget with IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realized through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term development goals. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery.

Integrated developmental planning in the South African context is amongst others, an approach to planning aimed at involving the municipality and the community to jointly find the best solutions towards sustainable development. Furthermore, integrated development planning provides a strategic environment for managing and guiding all planning, development and decision making in the municipality.

It is important that the IDP developed by municipalities correlate with National and Provincial intent. It must aim to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the Municipality, issues of national and provincial importance should be reflected in the IDP of the municipality. A clear understanding of such intent is therefore imperative to ensure that the Municipality strategically complies with the key national and provincial priorities.

The aim of this revision cycle was to develop and coordinate a coherent plan to improve the quality of life for all the people living in the area, also reflecting issues of national and provincial importance. One of the key objectives is therefore to ensure that there exists alignment between national and provincial priorities, policies and strategies and the Municipality's response to these requirements.

The national and provincial priorities, policies and strategies of importance include amongst others:

- Green Paper on National Strategic Planning of 2009;
- Government Programme of Action;
- Development Facilitation Act of 1995;
- Provincial Growth and Development Strategy (GGDS);
- National and Provincial spatial development perspectives;
- Relevant sector plans such as transportation, legislation and policy;
- National Key Performance Indicators (NKPIs);
- Accelerated and Shared Growth Initiative (ASGISA);
- National 2014 Vision;
- National Spatial Development Perspective (NSDP) and
- The National Priority Outcomes.

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP. The following table highlights the IDP's five strategic objectives for the 2015/16 MTREF and further planning refinements that have directly informed the compilation of the budget:

Table 19 - IDP Strategic Objectives

2015/16
1. To build Transparent administrative body capable of achieving transparency and integrity whilst addressing the needs of KwaSani Community
2. To facilitate community development and involvement; ensure higher levels of democracy and public participation
3. To create enabling investment environment and provide all residents in the municipality with access to inclusive economy
4. To maintain improve and extend infrastructure and quality service delivery throughout the municipal area
5. To enhance revenue generation and establish sound financial leading to a financially viable municipality
6. Reflect council development strategies spatially. Enhance regional identity and unique character of place

In order to ensure integrated and focused service delivery between all spheres of government it was important for the Municipality to align its budget priorities with that of national and provincial government. All spheres of government place a high priority on infrastructure development, economic

development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

Local priorities were identified as part of the IDP review process which is directly aligned to that of the national and provincial priorities. The key performance areas can be summarised as follows against the five strategic objectives:

1. Provision of quality basic services and infrastructure which includes, amongst others:
 - Provide electricity;
 - Provide water;
 - Provide sanitation;
 - Provide waste removal;
 - Provide housing;
 - Provide roads and storm water;
 - Provide public transport;
 - Provide municipal planning services; and
 - Maintaining the infrastructure of the Municipality.
2. Economic growth and development that leads to sustainable job creation by:
 - Ensuring there is a clear structural plan for the Municipality;
 - Ensuring planning processes function in accordance with set timeframes;
 - Facilitating the use of labour intensive approaches in the delivery of services and the building of infrastructure.
- 3.1 Fight poverty and build clean, healthy, safe and sustainable communities:
 - Effective implementation of the Indigent Policy;
 - Working with the provincial department of health to provide primary health care services;
 - Extending waste removal services and ensuring effective city cleansing;
 - Ensuring all waste water treatment works are operating optimally;
 - Working with strategic partners such as SAPS to address crime;
 - Ensuring safe working environments by effective enforcement of building and health regulations;
 - Promote viable, sustainable communities through proper zoning; and
 - Promote environmental sustainability by protecting wetlands and key open spaces.
- 3.2 Integrated Social Services for empowered and sustainable communities
 - Work with provincial departments to ensure the development of community infrastructure such as schools and clinics is properly coordinated with the informal settlements upgrade programme
4. Foster participatory democracy and Batho Pele principles through a caring, accessible and accountable service by:
 - Optimising effective community participation in the ward committee system; and
 - Implementing Batho Pele in the revenue management strategy.
- 5.1 Promote sound governance through:
 - Publishing the outcomes of all tender processes on the municipal website
- 5.2 Ensure financial sustainability through:

- Reviewing the use of contracted services
- Continuing to implement the infrastructure renewal strategy and the repairs and maintenance plan

5.3 Optimal institutional transformation to ensure capacity to achieve set objectives

- Review of the organizational structure to optimize the use of personnel;

In line with the MSA, the IDP constitutes a single, inclusive strategic plan for the Municipality. The five-year programme responds to the development challenges and opportunities faced by the Municipality by identifying the key performance areas to achieve the five the strategic objectives mentioned above.

The 2015/16 MTREF has therefore been directly informed by the IDP revision process and the following tables provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

Table 20 MBRR Table SA4 - Reconciliation between the IDP strategic objectives and budgeted revenue

2.3 Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the Municipality has developed and implemented a performance management system of which system is constantly refined as the integrated planning process unfolds. The Municipality targets, monitors, assesses and reviews organisational performance which in turn is directly linked to individual employee’s performance.

At any given time within government, information from multiple years is being considered; plans and budgets for next year; implementation for the current year; and reporting on last year's performance. Although performance information is reported publicly during the last stage, the performance information process begins when policies are being developed, and continues through each of the planning, budgeting, implementation and reporting stages. The planning, budgeting and reporting cycle can be graphically illustrated as follows:

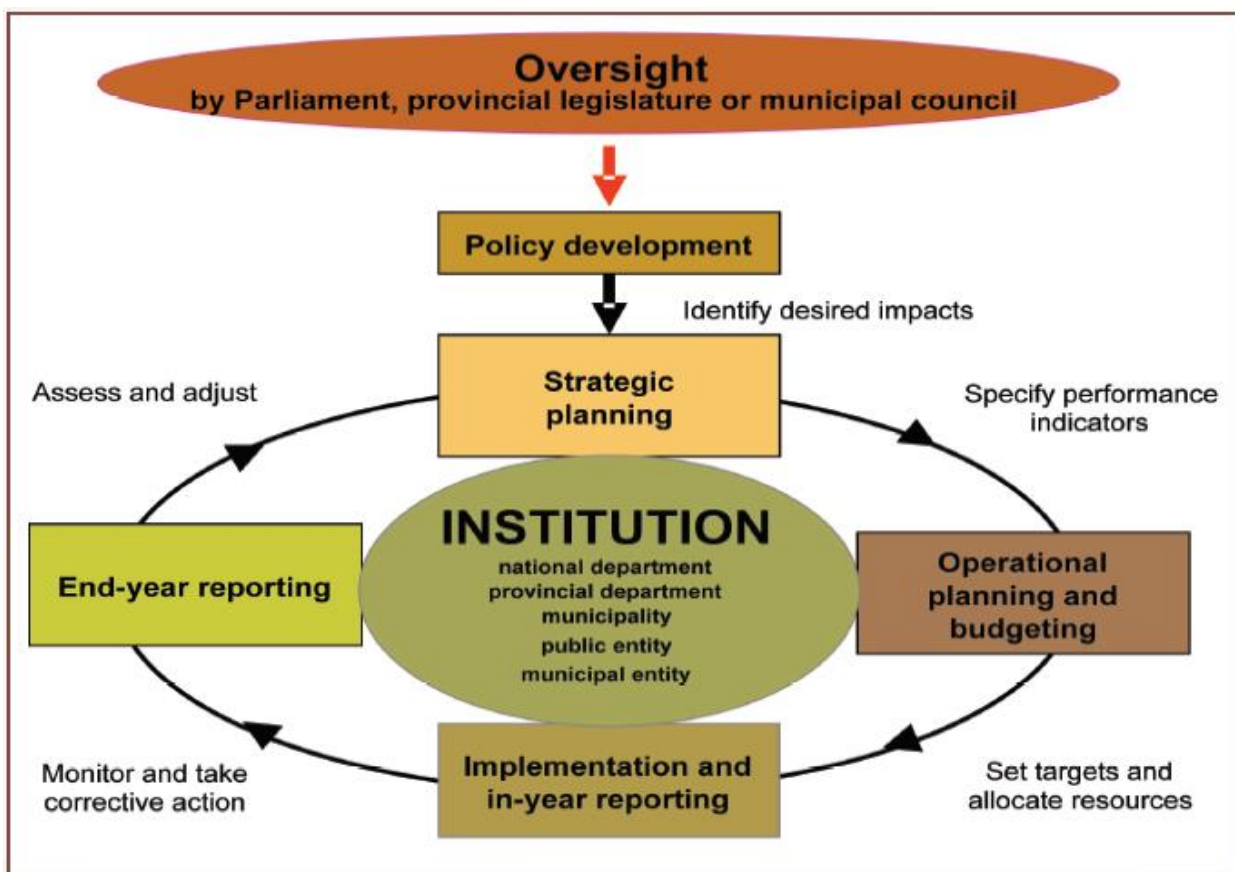

Figure 1 shows Planning, budgeting and reporting cycle

The performance of the Municipality relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations. The Municipality therefore has adopted one integrated performance management system which encompasses:

- Planning (setting goals, objectives, targets and benchmarks);

- Monitoring (regular monitoring and checking on the progress against plan);
- Measurement (indicators of success);
- Review (identifying areas requiring change and improvement);
- Reporting (what information, to whom, from whom, how often and for what purpose); and
- Improvement (making changes where necessary).

The performance information concepts used by the Municipality in its integrated performance management system are aligned to the ***Framework of Managing Programme Performance Information*** issued by the National Treasury:

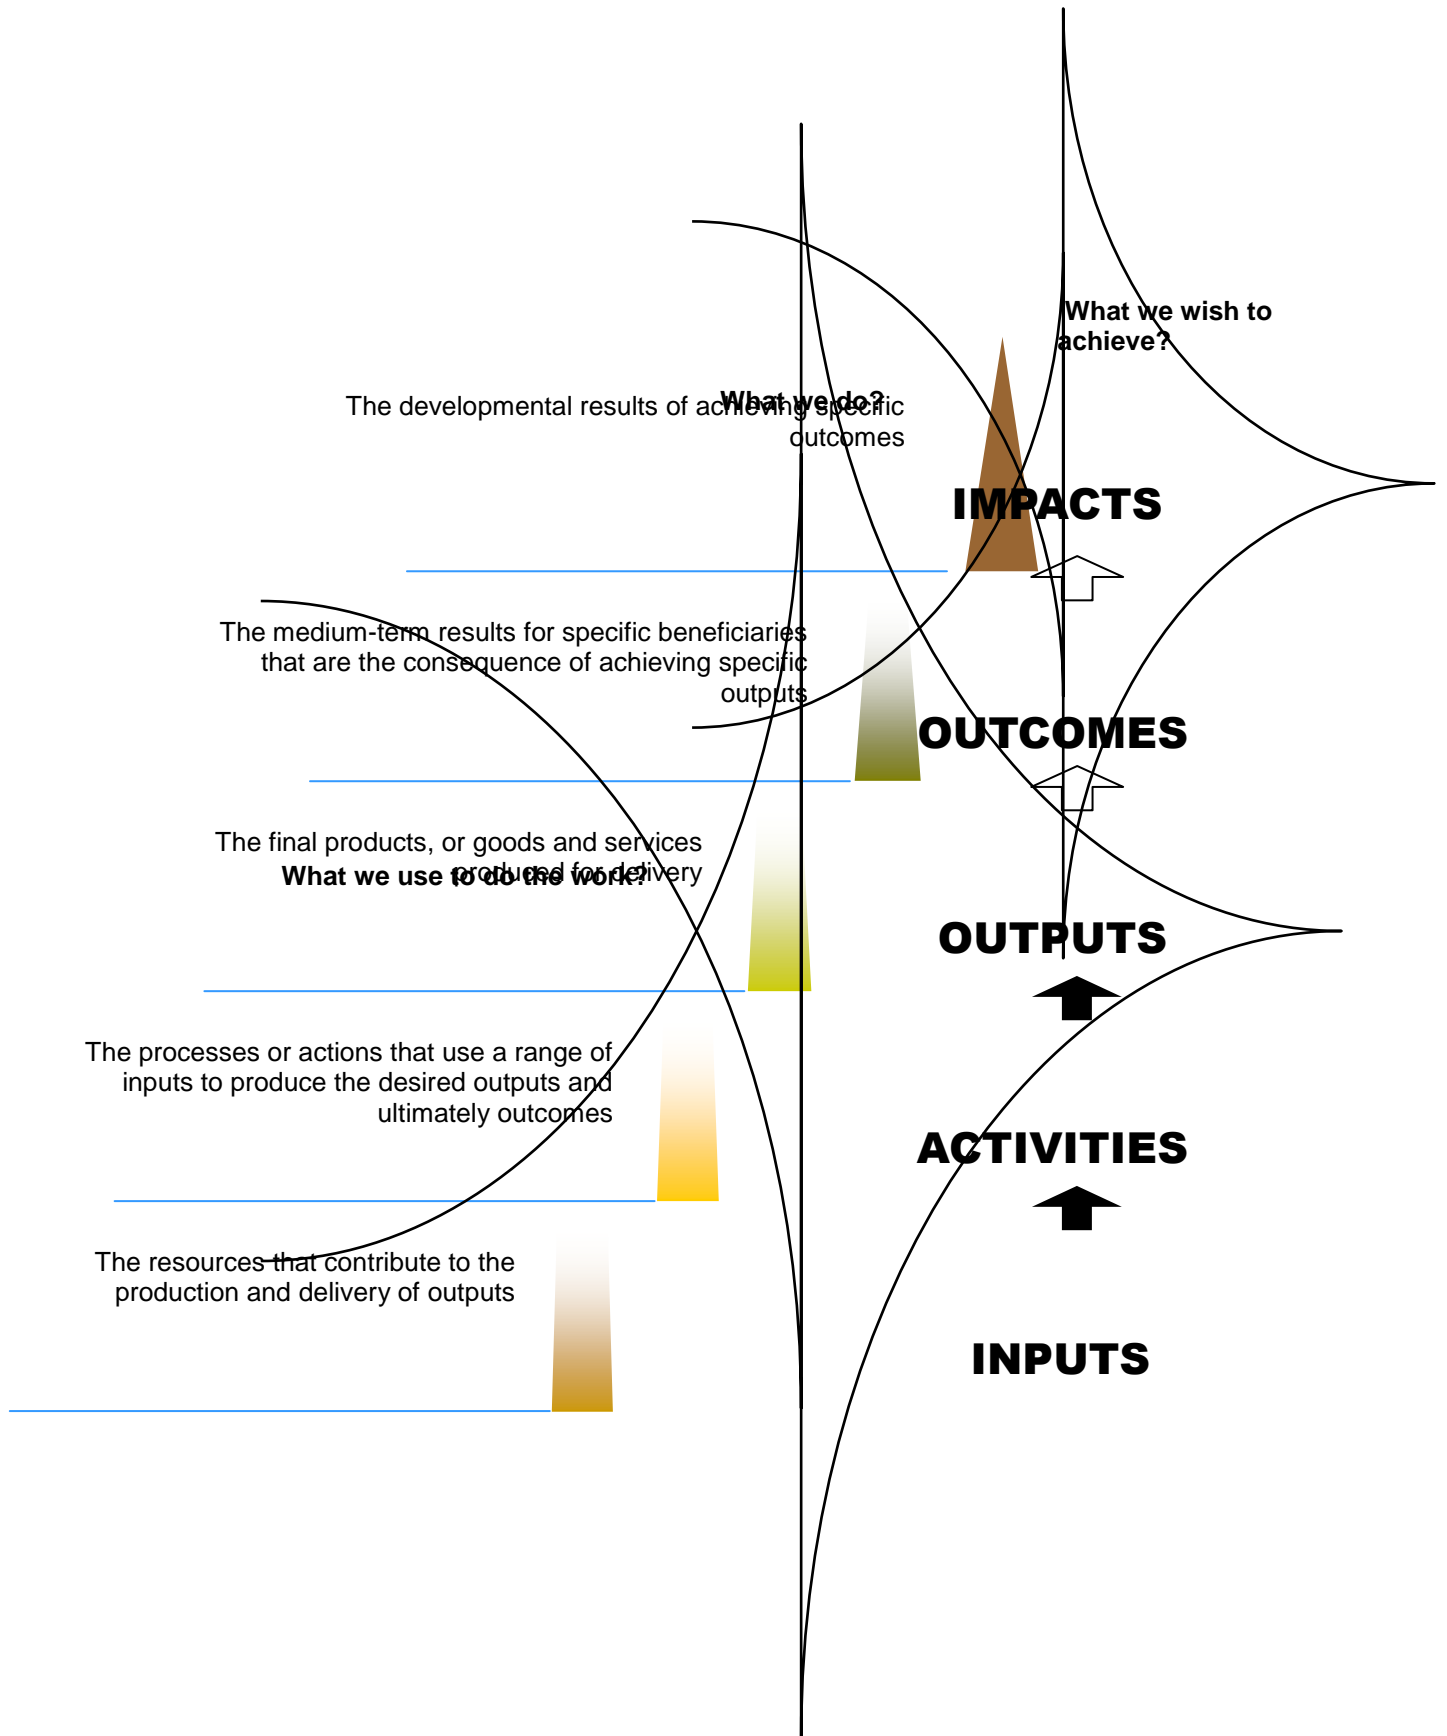

Figure 2 Definition of performance information concepts

The following table sets out the municipalities main performance objectives and benchmarks for the 2014/15 MTREF.

Table 22 MBRR Table SA8 - Performance indicators and benchmarks

KZN432 Kwa Sani - Supporting Table SA8 Performance indicators and benchmarks

Performance indicators and benchmarks

Borrowing Management

Capital expenditure in local government can be funded by capital grants, own-source revenue and long term borrowing. The ability of a municipality to raise long term borrowing is largely dependent on its creditworthiness and financial position. As with all other municipalities, KSM's borrowing strategy is primarily informed by the affordability of debt repayments. The structure of the Municipality's debt portfolio is made up of a finance lease and a DBSA loan. The following financial performance indicators have formed part of the compilation of the 2014/15 MTREF.

- *Borrowing funding of own capital expenditure* measures the degree to which own capital expenditure (excluding grants and contributions) has been funded by way of borrowing. The average over MTREF is 0%.

2.4 Overview of budget related-policies

The Municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies. There are no changes on the Draft policies for the 2015/16 MTREF as compared 2014/2015 policies that were approved by the Council. Changes would be proposed and discussed during the budget consultation process. The following policies would need more attention during the budget consultation process.

2.4.1 Review of credit control and debt collection procedures/policies

The Collection Policy as approved by Council in May 2014 is currently under review. While the adopted policy is credible, sustainable, manageable and informed by affordability and value for money there has been a need to review certain components to achieve a higher collection rate. Some of the possible revisions will include the lowering of the credit periods for the down payment of debt. In addition emphasis will be placed on speeding up the indigent registration process to ensure that credit control and debt collection efforts are not fruitlessly wasted on these debtors.

As most of the indigents within the municipal area are unable to pay for municipal services because they are unemployed,

The 2015/16 MTREF has been prepared on the basis of achieving an average debtors' collection rate of 95 % on current billings. In addition the collection of debt in excess of 90 days has been prioritised as a pertinent strategy in increasing the Municipality's cash levels.

2.4.2 Asset Management, Infrastructure Investment and Funding Policy

A proxy for asset consumption can be considered the level of depreciation each asset incurs on an annual basis. Preserving the investment in existing infrastructure needs to be considered a significant strategy in ensuring the future sustainability of infrastructure and the Municipality's revenue base. Within the framework, the need for asset renewal was considered a priority and hence the capital programme was determined based on renewal of current assets versus new asset construction. Budget Adjustment Policy

2.4.3 Supply Chain Management Policy

The Supply Chain Management Policy was adopted by Council in May 2014. An amended policy will be considered by Council in due course of which the amendments will be extensively consulted on.

2.4.4 Budget and Virement Policy

The Budget and Virement Policy aims to empower senior managers with an efficient financial and budgetary amendment and control system to ensure optimum service delivery within the legislative framework of the MFMA and the Municipality's system of delegations. The Budget and Virement Policy was approved by Council in May 2014.

2.4.5 Banking and Investment Policy

The Municipality's Cash Management and Investment Policy was approved by Council in May 2014. The aim of the policy is to ensure that the Municipality's surplus cash and investments are adequately managed, especially the funds set aside for the cash backing of certain reserves. The policy details the minimum cash and cash equivalents required at any point in time and introduces time frames to achieve certain benchmarks.

2.4.6 Tariff Policies

The Municipality's tariff policies provide a broad framework within which the Council can determine fair, transparent and affordable charges that also promote sustainable service delivery. The policies have been approved on various dates and a consolidated tariff policy is envisaged to be compiled for ease of administration and implementation of the next two years.

All the above policies are available on the Municipality's website, as well as the following budget related policies:

- Rates Policy;
- Funding Compliance Policy;
- Borrowing Policy;
- Budget Policy; and
- Indigent Policy.
- RATES BY-LAWS
- SUBSISTENCE AND TRAVEL POLICY
- TARIFFS POLICY
- POLICY ON INFRASTRUCTURE INVESTMENTS AND CAPITAL PROJECTS
- POLICY ON LONG TERM FINANCIAL PLANNING
- DEBT MANAGEMENT POLICY
- TRANSPORT POLICY

2.5 Overview of budget assumptions

2.5.1 General inflation outlook and its impact on the municipal activities

There are five key factors that have been taken into consideration in the compilation of the 2015/16 MTREF:

- National Government macro-economic targets;
- The general inflationary outlook and the impact on Municipality's residents and businesses;
- The impact of municipal cost drivers;
- The increase in the cost of remuneration.
- Employee related costs comprise 45% of total operating expenditure which increases pressure on the budgeted expenditure.

2.5.2 Interest rates for borrowing and investment of funds

Loan with DBSA and a finance lease with West bank are the 2 sources of borrowing that the municipality has to pay back.

2.5.3 Collection rate for revenue services

The base assumption is that tariff and rating increases will increase at a rate slightly higher than CPI over the long term. It is also assumed that current economic conditions, and relatively controlled inflationary conditions, will continue for the forecasted term.

The rate of revenue collection is currently expressed as a percentage (95%) of annual billings. The performance of arrear collections will however only be considered a source of additional cash in-flow once the performance has been carefully monitored.

2.5.4 Salary increases

The municipality has opted to budget for a 4,4% increase as per circular 74 and 75

2.5.5 Impact of national, provincial and local policies

Integration of service delivery between national, provincial and local government is critical to ensure focussed service delivery and in this regard various measures were implemented to align IDPs, provincial and national strategies around priority spatial interventions. In this regard, the following national priorities form the basis of all integration initiatives:

- Creating jobs;
- Enhancing education and skill development;
- Improving Health services;
- Rural development and agriculture; and
- Fighting crime and corruption.

To achieve these priorities integration mechanisms are in place to ensure integrated planning and execution of various development programs. The focus will be to strengthen the link between policy priorities and expenditure thereby ensuring the achievement of the national, provincial and local objectives.

2.5.6 Ability of the municipality to spend and deliver on the programmes

It is estimated that the municipality would spend 100 per cent operating expenditure and on the capital programme for the 2015/16 MTREF of which performance has been factored into the cash flow budget.

2.6 Overview of budget funding

2.6.1 Medium-term outlook: operating revenue

The following table is a breakdown of the operating revenue over the medium-term:

Table 23 Breakdown of the operating revenue over the medium-term

KZN432 Kwa Sani - Table A1 Budget Summary

Description	2011/12	2012/13	2013/14	Current Year 2014/15				2015/16 Medium Term Revenue & Expenditure Framework		
	Audited Outcome	Audited Outcome	Audited Outcome	Original Budget	Adjusted Budget	Full Year Forecast	Pre-audit outcome	Budget Year 2015/16	Budget Year +1 2016/17	Budget Year +2 2017/18
Financial Performance										
Property rates	10,785	12,472	15,329	14,553	14,559	14,559	14,559	15,172	16,123	18,123
Service charges	1,925	2,121	2,123	2,164	2,257	2,257	2,257	2,360	2,499	2,639
Investment revenue	820	931	1,190	1,541	1,176	1,176	1,176	1,257	1,317	2,698
Transfers recognised - operational	14,989	17,058	23,656	18,253	18,253	18,253	18,253	21,536	18,575	19,096
Other own revenue	989	845	1,069	3,507	7,405	7,405	7,405	2,889	2,874	3,513
Total Revenue (excluding capital transfers and contributions)	29,508	33,427	43,368	40,017	43,649	43,649	43,649	43,214	41,388	46,070

Proposed tariff increases over the medium-term

All tariffs are budgeted to increase by 4,8%. Anticipated Revenue to be generated from property rates is R 22,5 million in the 2015/16 financial year before rebates. With the implementation of the Municipal Property Rates Act the basis of rating significantly changed.

The Municipality completed the data verification and validation relating to the Second General valuation roll which was implemented on the 01 July 2013.

KwaSani Local Municipality is grant dependent, 50% of the total revenue is attributed to grants revenue. Rates and service charge revenues comprise on 41% of the total revenue mix. The above table excludes revenue foregone arising from discounts and rebates associated with the tariff policies of the Municipality.

Operational grants and subsidies amount to R 21.536 million, R18.575 million and R19.096 million for each of the respective financial years of the MTREF. It needs to be noted that in real terms the grants receipts from national government are growing rapidly over the MTREF. The percentage of the total operational grants and transfers in relation to the total operating revenue would remain constant @ 50% over 2015/2016 MTREF.

Investment revenue contributes marginally to the revenue base of the Municipality's with a budget allocation of R1.257 million, R1.317 million and R2.698 million for each of the respective financial years of the MTREF. It needs to be noted that these allocations have been conservatively estimated and as part of the cash backing of reserves and provisions. The actual performance against budget will be carefully monitored. Any variances in this regard will be addressed as part of the mid-year review and adjustments budget.

The tables below normally provide detail investment information and investment particulars by maturity but it does not have information because the municipality does not have long term investments except for 24 hour call account and 32 days' notice deposits. These investments does not meet the definition of investments in terms of GRAP are therefore reported as cash and cash equivalents even on Audited AFS for prior years.

2.6.3 Cash Flow Management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium-term. The table below is consistent with international standards of good financial management practice and also improves understandability for councilors and management. Some specific features include:

- Clear separation of receipts and payments within each cash flow category;
- Clear separation of capital and operating receipts from government, which also enables cash from 'Ratepayers and other' to be provide for as cash inflow based on actual performance. In other words the *actual collection rate* of billed revenue., and

- Separation of borrowing and loan repayments (no set-off), to assist with MFMA compliance assessment regarding the use of long term borrowing (debt).

2.11 Annual Budget and service delivery and budget implementation plans internal – departments

Attached is the Draft SDBIP which was tabled with the budget with the details of the annual budgets and service delivery and budget implementation plans for internal departments.

2.12 Annual budgets and service delivery agreements – municipal entities and other external mechanisms.

The municipality does not have entities and the only service that is provided through other mechanism is for Fire Services and disaster management the municipal have a contract with Rural Metro which expires on the 30 June 2016.

Table 38 MBRR SA32 List of external mechanisms

KZN432 Kwa Sani - Supporting Table SA32 List of external mechanisms

External mechanism Name of organisation	Yrs/ Mths	Period of agreement 1.	Service provided	Expiry date of service delivery agreement or contract	Monetary value of agreement 2.
		Number			R thousand
RURAL METRO	Yrs	2	DISASTER - FIRE AND EMERGENCY SERVICES	30 June 2016	R 800 000

2.13 Contracts having future budgetary implications

There are currently no contracts are awarded beyond the medium-term revenue and expenditure framework (three years). In ensuring adherence to this contractual time frame limitation, all reports submitted to either the Bid Evaluation and Adjudication Committees must obtain formal financial comments from the Budget & Treasury Office.

Table 45 - Schedule of Service Delivery Standards

KZN432 - Schedule of Service Delivery Standards	
Description	
Standard	Service Level
Solid Waste Removal	
Premise based removal (Residential Frequency)	once a week
Premise based removal (Business Frequency)	daily
Bulk Removal (Frequency)	once a week
Removal Bags provided(Yes/No)	YES
Garden refuse removal Included (Yes/No)	YES
Street Cleaning Frequency in CBD	daily
Street Cleaning Frequency in areas excluding CBD	daily
How soon are public areas cleaned after events (24hours/48hours/longer)	24 HOURS
Clearing of illegal dumping (24hours/48hours/longer)	24 HOURS
Recycling or environmentally friendly practices(Yes/No)	YES
Licensed landfill site(Yes/No)	transfer station
Water Service	
Water Quality rating (Blue/Green/Brown/N0 drop)	
Water Quality rating (Blue/Green/Brown/N0 drop)	
Frequency of meter reading? (per month, per year)	PER MONTH
Are estimated consumption calculated on actual consumption over (two month's/three month's/longer period)	
On average for how long does the municipality use estimates before reverting back to actual readings? (months)	MONTH
<i>Duration (hours) before availability of water is restored in cases of</i>	

<i>service interruption (complete the sub questions)</i>	
One service connection affected (number of hours)	
Up to 5 service connection affected (number of hours)	
Up to 20 service connection affected (number of hours)	
Feeder pipe larger than 800mm (number of hours)	
What is the average minimum water flow in your municipality?	
Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No)	
How long does it take to replace faulty water meters? (days)	
Do you have a cathodic protection system in place that is operational at this stage? (Yes/No)	
Electricity Service	
What is your electricity availability percentage on average per month?	
Do your municipality have a ripple control in place that is operational? (Yes/No)	
How much do you estimate is the cost saving in utilizing the ripple control system?	
What is the frequency of meters being read? (per month, per year)	
Are estimated consumption calculated at consumption over (two month's/three month's/longer period)	
On average for how long does the municipality use estimates before reverting back to actual readings? (months)	
Duration before availability of electricity is restored in cases of breakages (immediately/one day/two days/longer)	
Are accounts normally calculated on actual readings? (Yes/no)	
Do you practice any environmental or scarce resource protection activities as part of your operations? (Yes/No)	
How long does it take to replace faulty meters? (days)	
Do you have a plan to prevent illegal connections and prevention of electricity theft? (Yes/No)	
How effective is the action plan in curbing line losses? (Good/Bad)	

How soon does the municipality provide a quotation to a customer upon a written request? (days)	
How long does the municipality takes to provide electricity service where existing infrastructure can be used? (working days)	
How long does the municipality takes to provide electricity service for low voltage users where network extension is not required? (working days)	
How long does the municipality takes to provide electricity service for high voltage users where network extension is not required? (working days)	
Sewerage Service	
Are your purification system effective enough to put water back in to the system after purification?	YES
To what extend do you subsidize your indigent consumers?	
<i>How long does it take to restore sewerage breakages on average</i>	
Severe overflow? (hours)	2 HOURS
Sewer blocked pipes: Large pipes? (Hours)	2 HOURS
Sewer blocked pipes: Small pipes? (Hours)	1 HOUR
Spillage clean-up? (hours)	
Replacement of manhole covers? (Hours)	
Road Infrastructure Services	
Time taken to repair a single pothole on a major road? (Hours)	48 HOURS
Time taken to repair a single pothole on a minor road? (Hours)	12 HOURS
Time taken to repair a road following an open trench service crossing? (Hours)	24 HOURS
Time taken to repair walkways? (Hours)	N/A
Property valuations	
How long does it take on average from completion to the first account being issued? (one month/three months or longer)	ONE MONTH

Do you have any special rating properties? (Yes/No)	NO
Financial Management	
Is there any change in the situation of unauthorised and wasteful expenditure over time? (Decrease/Increase)	DECREASE
Are the financial statement outsourced? (Yes/No)	YES
Are there Council adopted business process restructuring the flow and management of documentation feeding to Trial Balance?	In development stage
How long does it take for an Tax/Invoice to be paid from the date it has been received?	30 DAYS
Is there advance planning from SCM unit linking all departmental plans quarterly and annually including for the next two to three years procurement plans?	YES
Administration	
Reaction time on enquiries and requests?	2 DAYS
Time to respond to a verbal customer enquiry or request? (working days)	1 DAY
Time to respond to a written customer enquiry or request? (working days)	2 DAYS
Time to resolve a customer enquiry or request? (working days)	2 DAYS
What percentage of calls are not answered? (5%,10% or more)	5
How long does it take to respond to voice mails? (hours)	2 hours
Does the municipality have control over locked enquiries? (Yes/No)	Yes
Is there a reduction in the number of complaints or not? (Yes/No)	YES
How long does it take to open an account to a new customer? (1 day/ 2 days/ a week or longer)	1 DAY
How many times does SCM Unit, CFO's Unit and Technical unit sit to review and resolve SCM process delays other than normal monthly management meetings?	weekly

Community safety and licensing services	
How long does it take to register a vehicle? (minutes)	10 minutes
How long does it take to renew a vehicle license? (minutes)	3 minutes
How long does it take to issue a duplicate registration certificate vehicle? (minutes)	5 minutes
How long does it take to de-register a vehicle? (minutes)	5 minutes
How long does it take to renew a drivers license? (minutes)	3 minutes
What is the average reaction time of the fire service to an incident? (minutes)	20 minutes
What is the average reaction time of the ambulance service to an incident in the urban area? (minutes)	2 hours
What is the average reaction time of the ambulance service to an incident in the rural area? (minutes)	5 hours
Economic development	
How many economic development projects does the municipality drive?	4
How many economic development programme are deemed to be catalytic in creating an enabling environment to unlock key economic growth projects?	1
What percentage of the projects have created sustainable job security?	-
Does the municipality have any incentive plans in place to create an conducive environment for economic development? (Yes/No)	NO
Other Service delivery and communication	
Is a information package handed to the new customer? (Yes/No)	NO
Does the municipality have training or information sessions to inform the community? (Yes/No)	YES
Are customers treated in a professional and humanly manner? (Yes/No)	YES

2.15 Legislations compliance status

2.21 Public Notice for Budget and IDP

KWA SANI MUNICIPALITY PUBLIC NOTICE

Integrated Development Plan 2015/2016

In line with the provisions of legislation, the Kwa Sani Municipality hereby advertises its intention to afford communities opportunity to comment on its Draft IDP review 2015/2016 document as was tabled to Council at its meeting held on Monday, 23rd March 2015.

Communities and all stakeholders are therefore advised that the Draft Integrated Development Plan review 2015/2016 will be open for inspection for a period of 14 days from the date of this notice for inspection and comments.

DRAFT BUDGET, BUDGET RELATED POLICIES, MUNICIPAL RATES & TARIFFS OF CHARGES FOR 2015/2016

Notice is hereby given in terms of the Local Government Municipal Systems Act No. 32 of 2000 and Municipal Property Rates Act No.6 of 2004, that the Draft Budget of the Kwa Sani Municipality for 2015/2016 in terms of the Local Government Municipal Finance Management Act No. 56 of 2003 is now available for inspection and comments on the Municipal Building, Municipal Library and Municipal website.

The property rates tariffs that will be applicable in 2015/2016 financial year are as follows:

	2014/2015	2015/2016
CAT 1:RESIDENTIAL PROPERTIES	1.246c/R	1.306c/R

CAT 2:COMMERCIAL PROPERTIES	2.493c/R	2.613c/R
CAT3:AGRICULTURAL PROPERTIES	0.311c/R	0.326c/R
CAT4:STATE OWNED PROPERTIES	1.246c/R	1.306c/R
CAT 5:PSI	0.311c/R	0.326c/R
CAT 6: PBO	0.311c/R	0.326c/R
CAT 8:TOURISM & HOSPITALITY RURAL	0.623c/R	0.653c/R
CAT 10:RESIDENTIAL SMALL HOLDING	1.246c/R	1.306c/R
CAT 11:TOURISM & HOSPITALITY URBAN	1.246c/R	1.306c/R

The first R 15 000 of all tourism & hospitality urban properties (B&B) and first R 50 000 on residential & residential small holding properties be exempt from the calculation of rates as per the Municipal Rates policy.

The tariffs will be applied to property values in the General Valuation Roll & Supplementary Rolls prepared in terms of MPRA. Property owners who have lodged objections on the market values of their properties are required to pay rates based on the objected values in terms of MPRA until their objections have been considered and adjustments will be made afterwards.

2. The 2015/2016 rates will be subjected to the following rebates, in terms of Council's Rates policy.

DESCRIPTION	2014/2015	2015/2016
