

## **KSM VIEW POINT**

Warm greetings to the community of Kwa Sani, it is through the grace of the lord that we meet again this week to share the news of Kwa Sani with the community. Firstly the municipality would like to make the community aware of the heavy weather conditions that seem to be invading our district living many people homeless and losing their belongings. We plea to all Kwa Sani citizens to be alert of these heavy storms and ensure the safety of children at all times. The programme of Operation Sukuma Sakhe (OSS) is still visible and continues to bring change into people's lives, we urge people to use these war rooms so that they can get a chance to interact with the government department officials and use these war rooms as the platform to offload their problems so that a solution can be found in the war room.

The Kwa Sani municipality believes that each and every one has the potential and ability to make a difference in the communities that we live in, the majority of the economy of Kwa Sani is formed by the agricultural sector as well as the tourism industry, we call upon the people of Kwa Sani in particular the youth to rise, shine and take charge of their future, bearing in mind that the future of Kwa Sani is in their hands.

Until next time be the positive change in your community.
