

The Executive Mayor, Cllr M.B Banda of Kwa Sani Municipality accompanied by Cllr Majosi and members and pupil of the community of Mqatsheni handed over sleeping mattresses, chairs, mini blankets, washing basins and educational toys to the toddlers' at Mqatsheni pre-school on Tuesday, 15 July 2014.

Mayor Banda believes that if you save one child's life, you make a difference in the world and you develop an adult who will be able to take a stand in society. With these words Mayor Van der Banda encouraged the caretakers to never give up on what they are doing.

The toys were donated to all the pre-schools around Kwa Sani and this project was sponsored by National Development Agency (NDA) who played a critical role in fulfilling the dreams of many young children of Kwa Sani.

As the municipality we believe that a playing mind is a healthy mind and we encourage every school to promote sport in their schools, hence removing the children away from alcohol and substance abuse by giving them something to do with their spare time.

We would like to extend our gratitude to the municipal manager and the officials of the municipality, special programmes unit in particular and the NDA for their contribution. As the municipality we proud ourselves with the efforts that have been made in changing the lives of the people and together we can move South Africa forward.
